

Score points with the Point of Sale that's built for Sage 300

Maximize efficiency. Slam-dunk profits.

When your financials, operations, and marketing all work together as a team, you get better margins, happier customers, and a more efficient workforce. FusionPOS for Sage 300 integrates smoothly with your accounting system for maximum benefits at every level.

Tighten up your position

Now financial reports, cash, and accounts payable can be fast, accurate, and as effortless as a trained athlete. With Fusion point of sale, your staff won't waste any more time on duplicate entries and error management. Fusion's point-of-sale system automates customized, instant posting of transactions, items, pricing, and customer data between Sage 300 and your register.

Drop-kick your downtime

Eliminate time deciphering complicated orders and fulfillments. All of our keyboard and touchscreen interface options are highly user-friendly and feature fully customizable fields to reduce time in training and operations. And that's only the beginning:

- Whether the Internet's available or not, all of your sales and transaction data is stored and automatically updated once you're back online.
- Prices stay consistent at all locations with automatic price synchronization.
- Tired of calculating sales staff commissions? FusionPOS automatically does it for you.
- Just one transaction can now represent a sale with refund or exchange.

Play to your audience and win

View and quantify your customers' buying habits for highly targeted, effective marketing campaigns. You can also:

- Retain customer transaction history without having to create individual accounting profiles.
- Create and view different types of items and customers.
- Customize loyalty programs with easy access to customer data.
- Reduce chances of fraud with automatically verified credit status, exchanges, and returns.
- Use your cash registers for on-account customer payments.
- Keep accurate track of layaways and payment records.

Run a strong defense

Accept credit, debit, checks, gift cards, and EBT with fully PCI-compliant payment processing, complete with safeguards and anti-fraud controls. With secure PA-DSS 1.2 validated gateways PCCCharge™ and PayWare PC™, you're fully covered for customer and merchant account protection.

Go for the gold

Promoting your business just got a lot easier, too.

- Create Buy One, Get One; loyalty; gift card; and vendor-based promotions.
- Add local store promotions from anywhere.
- Schedule service or rental appointments, and convert them into sales transactions in one click.
- Be a fulfillment pro with simplified delivery, shipments, and invoicing.

Give us a test drive

There's no better way to see how much time and money you can save than by watching FusionPOS for Sage 300 in action. Schedule a demo using the form at top right, or call 214-420-5144 today.
