

FUSION POS FOR ACUMATICA

A complete retail solution for linking your store or restaurant with purchasing, accounting, and inventory management.

Fusion POS for Acumatica provides a fully integrated environment with the benefits of stand-alone retail. Our OnTime™ integration, allows data to flow effortlessly between your retail stores and the cloud yet allows independent store operations when needed. So you get the full benefit of Acumatica cloud ERP while not risking retail operations to the whims of connectivity.

Inventory availability and pricing are established in Acumatica and move freely and automatically to your individual stores. Store operations benefit from Fusion POS robust feature set. With more than ten years of development and use in the field, Fusion POS is also highly intuitive and requires little end user training or ongoing support.

A Complete Solution

Acumatica

- > Phone, Fax, and Ecommerce sales
- > Shipping and receiving
- > Business level
- > Company financials and general ledger
- > Global inventory management
- > Global marketing and promotions

FusionPOS™

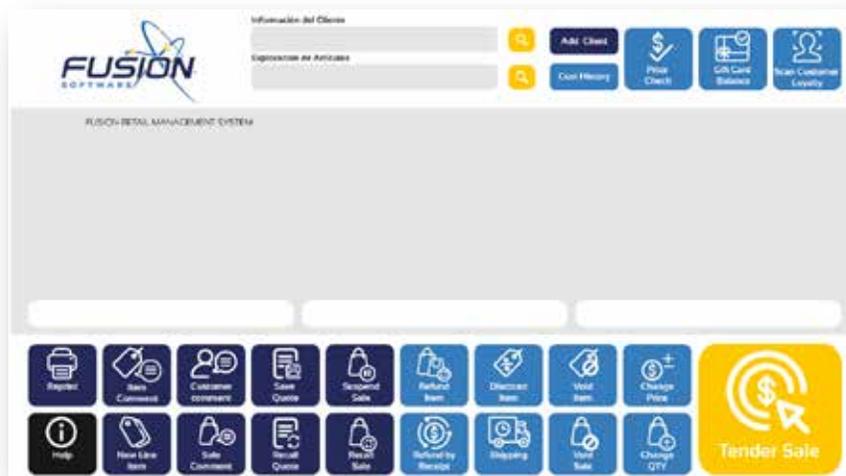

- > In store and counter sales
- > In-store management
- > In-store CRM
- > In-store payment processing
- > Local inventory stock
- > In-store promotions

Platforms and Installation Options

Fusion POS operates in virtually any windows environment – no need for proprietary hardware. Also, purchase, lease or subscription ownership plans are available. You can install Fusion POS and Acumatica on a server on your premise or host it with a competitive external service provider or cloud services platform.

Easy to Use Interfaces that are Easy to Configure

Fusion POS includes either keyboard or touch screen options and features over seventy five one-touch commands to simplify interaction. With one touch you can add discounts, price changes, look up items or customers, or tender payment. Fusion POS can complete a retail transaction with only one manual step when properly configured. The register user interface can be configured to match the colors, look, and feel of your business. While changing the appearance, you can move data fields and elements to maximize process efficiency.

Key Features

CUSTOMER RELATIONSHIP MANAGEMENT

- > Track customer purchase history and demographics at each store to maximize loyalty programs and targeted marketing.

BUSINESS INTELLIGENCE

- > Fusion BI provides store managers and executives with key performance indicators for a single store or across locations. The web-based interface provides real-time data.

ADVANCED PRICING

- > Fusion Advanced Pricing delivers the maximum perceived discount with minimum revenue loss. Track all types of promotions such as BOGO, bundles, referrals, and more.

GIFT CARD

- > Fusion Gift Card Server provides real-time tracking of gift card usage. Gift cards can be issued and replenished from any location and integrated with ecommerce shopping carts.

STORE BASED PRICING AND PROMOTIONS

- > Exploit local pricing opportunities by setting individual store prices.

PAYMENT MANAGEMENT

- > Take payments by debit card, credit card, cash, check, gift card, or other method. Accept multiple payment types on a single transaction.

FUSION MOBILE

- > Salespeople can capture information, check prices, check stock, and look up information without leaving the client's side.
